

Math-19 Homework #6

Reading

Sections 1.9, 1.10, 1.11, 1.12

We will not cover 1.11 in class. You should study it to learn how to graph and solve equations with your calculator. Being able to do so allows you to check your answers on problems that you do manually. But, be warned: sketches and solutions without supporting work will be assumed to have been copied from a calculator and will receive no credit.
